SKILLS

- **Languages**: Java, C++, JavaScript, PHP
- **Frameworks**: HTML , CSS, Bootstrap, NodeJS, ReactJS
- **Tools/Platforms**: MySQL, MongoDB
- **Soft Skills**: Problem-Solving, Project Management, Adaptability

TRAINING

DSA Session – Lovely Professional University :   April - August 2024

Completed a 3-month online session on Master in Data Structures and Algorithms with C++ under expert guidance. Gained in-depth knowledge of data structures, algorithms, and problem-solving techniques.

Developed various algorithms to optimize performance and improve computational efficiency through hands-on projects and real-world applications.

Environmental Trainer – Safal India NGO: April - August 2023

Conducting training sessions to raise awareness about environmental protection and sustainable resource usage. Educating individuals on reducing waste, conserving natural resources, and adopting eco-friendly practices. Promoting sustainable living through workshops and community engagement initiatives to create a positive impact on the environment and society.

PROJECTS

Pizza-Hub – Pizza-Order-website: July-October 2024
- Designed and developed a pizza ordering platform featuring home, about, contact, and menu pages for seamless user navigation.
- Implemented product details, order placement, cart management, and payment features, allowing users to browse pizzas and burgers, view descriptions, adjust quantity, and complete purchases.
- Integrated a MySQL database with PHP for efficient order processing and data management.
- Tools: [React.js, PHP, MySQL, HTML, CSS, JavaScript]
- GitHub link: https://github.com/vikashkumar12218021/Pizza-Hub
- Live link: https://pizza-hubb.vercel.app/

Social-network – Social media website :   August-December 2023
- Designed and developed a dynamic social media platform with features like home, explore, notifications, messaging, Bookmarks, themes, settings, story posting, profile picture upload, and post interactions (like, comment, share).
- Implemented friend requests, story viewing, and search functionality to enhance user engagement.
- Engineered a seamless user experience with a responsive frontend using React.js and a scalable backend with Node.js.
- **Tools:**[React.js, Node.js, HTML, CSS, JavaScript]
